

THE SHANNON FAMILY

Our vision is to love orphans and street children and to empower the poor and needy in every aspect of life through the power of God.

The countries that we work in are Madagascar and Cambodia.

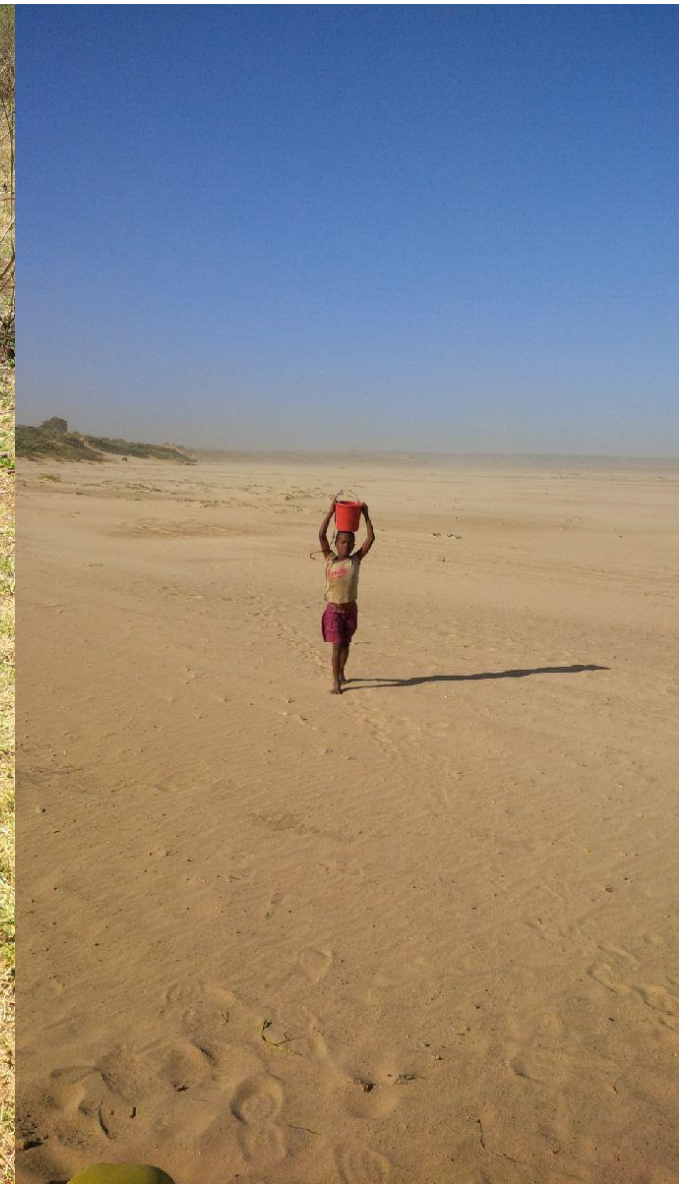

The needs are overwhelming in both countries.

Thousands of street children needing food, love and education.

Thousands of people going without clean water.

Thousands going with out proper medical and dental care.

Millions of people living in abject poverty, without education and the knowledge of God. The problems seem impossible.....

But with God, all things are possible ...

The Madagascar Hope Center

The Cambodia Life Center

God first called us to Cambodia in 2005 where we built the Cambodia LIFE Center, a home of love and education for 33 orphans and 350 impoverished students.

We have preached the gospel to over 100,000 people and we also have a strong antihuman trafficking ministry of prevention. We warn young children and families about the dangers of human trafficking and how to prevent it.

We have had our first three orphans graduate from the Cambodia LIFE Center and they have gone onto Bible college and now they will be going on to University. ***

Our vision is to help create Nation Changers for God. And by God's grace we are seeing this happen today!

We are now in the process of building another Center called the Cambodia SAFE house which will be a home for very young girls who have been trapped in sexual slavery. We will rescue these girls from the brothels and give them a new home of love and education.

All these ministries continue on today through our organization called Empowerment Advocates International.

In 2011 God called us to empower the Cambodian leaders and hand over the operation management's to them. Ever since we did this the ministry in Cambodia has expanded greatly.

Also in 2011 God called us to the country of Madagascar where we have been ministering to street children through a feeding tent where feed 800 children every day.

These children live a life of absolute fear as they must run and hide from place to place from rapists and human traffickers.

In the day they beg for small change in order to survive or they do hard labor of carrying water, collecting garbage or doing laundry all day.

Many of the children say the only time they eat is when they come to the feeding tent.

Many of the children have no parents and sleep directly on the street. Many also have one parent with one having died, or is an alcoholic or has gone insane. Everyone is living in abject poverty, making on average of no more than \$1 day.

We feed these children and we also share with them about God through the 17 stories program.

Then the children thank God for their food.

We then feed the children a nutritious meal.

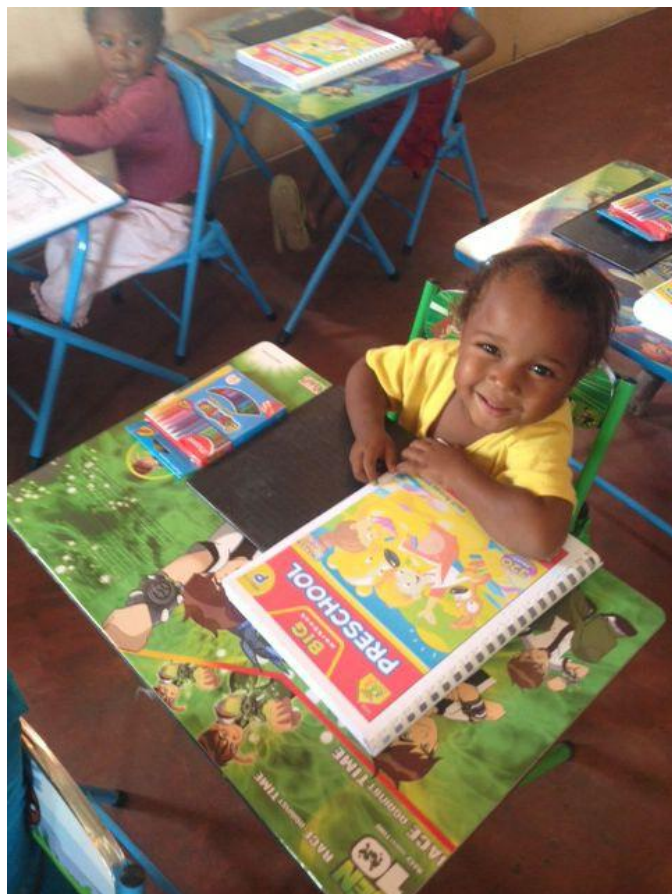

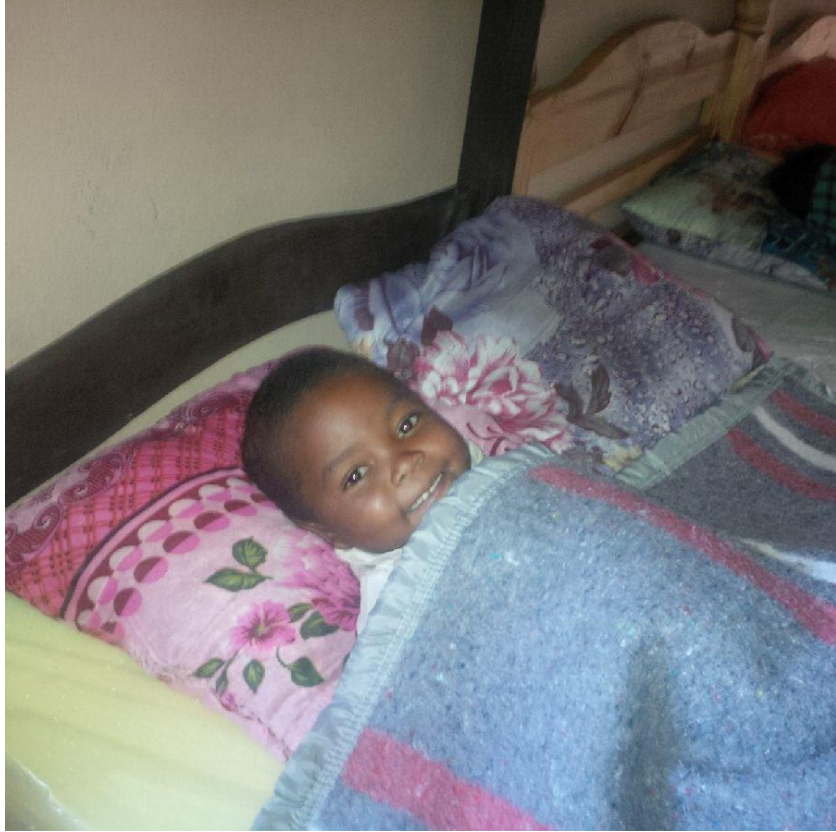

We have always had on our heart to have a place where street children could come and have a home of love, care and education. The result of this vision is the Madagascar HOPE Center.

Even though there was much difficulty and distress in building this center, God made a way where there was no way. Now it is a home to 45 former street children who are living a new life filled with Joy.

The children are actually learning three languages.

These children are learning about God and how much He loves them.

These children are receiving three meals a day, a warm bed and a beautiful place to play.

Before they knew only about survival, now they can truly live a life of freedom.

It is a great victory!

If these children continued to live on the street the boys would surely become men who push and haul things around the city, (most without shoes) and the girls would grow up to become washers of clothes and water carriers. The cycle of poverty will continue on forever if people don't join together and stand in the gap for these children.

We as a family wish to help to stand in the gap in Cambodia and Madagascar.

Would you please consider to partner with us to help make Nation Changers for God throughout the world?

Thank you for your support!
